PROFESSIONAL EXPERIENCE

Optimind Inc - Software Developer/Senior Product Manager Apr 2022 - Present

- Led 4 teams of 5-6 members of international backgrounds (4+ nationalities). Two were complicated subsystems backend teams for the vehicle dispatch software **Loogia**. Two were stream aligned teams in the 0 to 1 phase.
- Developed algorithms and backend APIs while leading two algorithm development teams (route search and combinatorial optimization). Led continuous feature improvements including: expanding algorithm scalability to calculate large scale requests, achieving 20% reduction in calculation time, and incorporating machine learning for continuous improvement of our travel time estimation logic.
- Scaling our algorithms allowed me to establish our [professional consultation services](#), expanding our product offering and contributing upwards of 25% of our revenue.
- Kickstarted development of customizable data pipeline solution that connects with enterprise customers' core systems and allows for seamless integration with Loogia product suite. This product was pivotal in onboarding two enterprise customers which now constitute 20% of total company MRR.
- Spearheaded development of our mobile navigation solution for logistics service providers.
- Voted company MVP in 3rd quarter of 2023 and 2nd quarter of 2025.

Waseda University School of Political Science and Economics - RA Feb 2022 - Aug 2022

- Econometric analysis of electricity usage in developing countries. Implemented linear models, IV models, dynamic structural estimation with GMM in R.

Bank of Japan - IT Department Summer Internship Sep 2021 - Oct 2021

Morgan Stanley - IT Summer Insight Program Jul 2021 - Aug 2021

Google Developer Student Club Waseda - Backend Lead Jun 2021 - Jun 2022

- Led the Backend Team at Japan's largest Google Developer Student Club.

EDUCATION

Waseda University - School of Political Science and Economics (GPA 3.7/4.0) Apr 2019 - Mar 2023

[Global Leadership Fellows' Program](#) fellow. Advisors: [Tadao Hoshino](#), [Hisatoshi Tanaka](#).

University of Chicago (GPA 3.93/4.0) Sep 2020 - Jul 2021

Exchange program. Took courses in econometrics and computer science. Participated in research assistantship.

SKILLS

Languages:	Japanese (Native), English (Native)
Programming Languages:	Python, Go, C++, SQL, R
Frameworks:	FastAPI, Django, Streamlit
Infrastructure:	GCP (GKE, Cloud Run, CloudSQL, BigQuery, Dataform, Functions, Compute Engine, GCS, Monitoring), Docker, AWS (SQS, Lambda), Github Actions, Terraform, DataDog, Fivetran.

CERTIFICATES

- Japan Statistical Society Certificate Level 3, Best Grade, 2019
- Waseda University Arai Takanobu Scholarship

EXTRA CURRICULAR

Mall Tomorrow - Cofounder Jul 2022 - Present

- Designed and developed backend architecture of EC system MallTomorrow using Golang, Postgresql, GCP (Cloud Run, CloudSQL).

Catholic Commission of Japan for Migrants, Refugees and People on the Move 2015 - Present

Caretaker, Educator, Translator
